

## CITY'S PURSE TIGHTLY SHUT

Lots of Improvements Petitioned for Sidetracked by Council as Usual.

## WEST SIDERS RECOGNIZED

KICKS REGISTERED AGAINST BOARD OF PUBLIC WORKS.

The present city administration is not so anxious to order improvements as it was before the election, except when there is no cost to the city or when it is work provided for by the bond fund money. Last evening the city council sent nearly \$300,000 worth of improvements, petitioned for by property owners and duly advertised for protest, to the finance committee, where they will probably lie until some way is found to provide the \$55,000 necessary to pay for the city's share of the work.

The aqueduct for North Temple street was rushed through and the councilmen from the second ward were successful in getting an order to proceed with water main extensions for which the west side has been clamoring for two years. Some other work was ordered, which will be provided for by the bond fund if the city's share is little.

The extensions sent to the finance committee for purpose of delay include sidewalk extension 136 on the east bench at a cost of \$24,397.92, city's portion \$5,423.57; paving extension 54, West Temple from Fifth to Ninth street and Fifth Street between First West and Main street, cost \$84,267, city's portion \$20,508.67; paving extension 55, First West between Second Temple and Third Temple street, cost \$49,720.27, city's portion \$3,188.97; sidewalk extension 132, from State to Fourth West and Ninth street to Martin and Roper avenues, cost \$62,675.26, city's portion \$12,156.93; paving extension 51, First avenue from J street to Virginia street, cost \$72,290.93, city's portion \$26,695.97.

The total cost of these is \$294,283.48, and the total of the city's portion is \$54,475.86. It is doubtful if any of them will be done this year, as there is no money to pay for the city's portion, though some of them may be ordered on the eve of another election.

**Contracts Approved.**  
The contract sent up from the board of public works, which met yesterday afternoon and awarded to D. W. & H. Heuser the building of the aqueduct on North Temple street, from Fourth West to the Jordan river, at a cost of \$48,352, was at once approved.

The council also approved the contracts for the conduits of reinforced concrete for the Salt Lake & Jordan canal at Parley's creek for \$2,163.50, and north of Mill Creek for \$7,437.79, awarded by the board to Shea & Anderson.

Another contract approved was for power for the Utah lake pumping plant and was with the Utah County Light & Power company for a maximum of 400 horsepower and a minimum of 300 horsepower for five months at \$4.50 per horsepower.

**Councilmen Raybould and Hodgson** got through an order to the board of works to rush the work of completion of sewer extension No. 182, held by James Kennedy.

**West Siders Win.**  
The councilmen from the second ward made an untold effort and secured the passage of an order to the board of works to advertise water extensions on the west side amounting to about \$17,000. These were first ordered a year and a half ago, and were down to last year to be done out of the bond issue. Few of the extensions will pay the usual rate of interest on the city's expenditure for putting them in, and there is some question as to whether they can be carried through without a change of the ordinance. Though Councilman L. E. Hall remarked that this looked like an unseemly squabble, the west side members were insistent and it went through.

A petition from S. E. Hamer and others, protesting against the manner in which the board of works is neglecting the interests of the property owners and allowing bad work on sidewalk extension No. 108, was referred to the engineering committee. The petitioners asserted that in some places there were twelve to twenty cracks in the new sidewalks to a city block. The board, they said, had promised to redress and had not made any change in the quality of the work being done.

**Requests Are Made.**  
Edison street property owners want that thoroughfare paved and their request went to the streets committee, which will also consider a request of Willard Mack of the Jungaew theatre and George D. Pyper of the Salt Lake theatre to be allowed to maintain awnings over the sidewalks until the close of the theatrical season.

The payrolls, amounting to \$10,999.99, were approved.

Councilman L. E. Hall offered a resolution to consolidate the waterworks and the water supply funds to save confusion and simplify bookkeeping, but his request was sent to the graveyard of all such resolutions, the finance committee.

The same committee will consider a proposition to advertise for bids for supply of street signs.

Papworth & Sons were given permission to go ahead with the erection of their proposed packing plant and cold storage warehouse at Eighth West and Seventh North streets.

The Salt Lake Hardware company got

## Locomotor Ataxia

"I suffered intensely from Locomotor Ataxia, and Dr. Miles' Anti-Pain Pills gave me great relief. I have taken them for a long time, and some people say they are not good for me. Well, maybe not, but they relieve my pain and I will take them as long as they continue to do so. Anti-Pain and Nerve and Liver Pills keep me up and I assure you I am thankful for that."

JACOB HIRGEL, Covington, Ind.

Many persons who suffer constantly from chronic diseases, find great relief by the use of Dr. Miles' Anti-Pain Pills, and after several years use, say that they have in no way injured them or created a habit.

The first package will benefit. If not, your druggist will return your money.

## Mix for Colds

To one-half pint good whiskey add one ounce syrup sarsaparilla and one ounce Toris compound, which can be procured of any druggist. Take in teaspoonful doses before each meal and before retiring. This relieves in 24 hours and cures any cold that is curable.

action on its request to have Third Temple street repaved from the First North street, where its new warehouse is located, paved with asphalt. The work was ordered.

Chief Glone reported the resignation of Captain Angus Morton of the fire department at 1 p. m., Feb. 28, and asked the council to confirm his appointment, which was done. Lieutenant James Murphy becomes captain; Fireman George Ottinger, lieutenant; and Peter Odenwalder was appointed to the department.

## Bad Night for Ordinances.

It was a bad night for ordinances. The liquor ordinance was given a hot shot of another two weeks, as was expected. The wide-trail ordinance met with opposition from Councilman T. R. Black, who managed to get it put over a week. An ordinance introduced by Councilman F. S. Fernstrom received its final passage, however. The ordinance provides for hire at night must carry two lights, on which the license number must appear in letters three inches long and that every such vehicle must have lights inside each door.

The Salt Lake & Los Angeles railway sent in a substitute ordinance for the one which asked for the double-trucking privilege on Fourth West to South Temple streets, and on North Temple street to the city limits. Much opposition had developed from property owners along this route to the laying of another track on the streets, and the railway people decided to get along with the single track.

## GREAT SCANDAL NOW COMING UP

Englishman and His American Wife Under Arrest in France for Ill-Treating Children.

Paris, March 1.—The newspapers are deeply absorbed with the case of the Englishman, Sargent, and his wife, said to be an American, arrested at Asnieres, charged with the gross ill-treatment of four children whom they had adopted, and claim that the developments indicate the probability of a great scandal.

The chief energy of the authorities is being directed to tracing the parentage of the children. They announce that Mrs. Sargent claims that the eldest child, who was so brutally beaten that he is now in a hospital, is named Mary Ann Edgeworth, and that she was born Oct. 18, 1889, in Newark, N. J. The police say the woman insists that she is the daughter of a Frenchman named Savin, and an American woman, who now lives in the United States, and that they forward her each year \$5,000.

Before a magistrate today the woman declared she had not married the children, that she had only chafed them when punishment was necessary. There were violent scenes in the court room between the accused couple and the servants, the latter charging the woman with being a "prevaricating monster." Sargent collapsed when the magistrate was examining him.

The police say they have established the fact that the youngest child adopted by the Sargents was born in November at the Holy Trinity lodge, an Anglo-American institution, the membership of which is composed of English and American girls. The official register gives the name of the child as Ker-neth Edgeworth, a son of Mabel Johnson. In December, after having received excellent references given by the woman, a lodge turned over this child to the couple.

Mrs. Savin, sister of Mrs. Sargent, declares that Savin, father of the accused woman, is a wealthy financier of New York. She also says that Mr. and Mrs. Savin, the parents of Mrs. Sargent, separated a number of years ago and that Mrs. Savin went with her daughter to London, where she died. Savin afterward signed a deed agreeing to pay his daughter \$5,000 annually.

Mrs. Savin said the Edgeworth child was the daughter of a cook in Nevada, a girl, and she had a son, and, gesturing girls, she turned over the female child to a New York negroess, Mrs. Sargent became acquainted with the cook, who agreed to let her have the child, and the negroess had no objection. The latter was reluctantly to part with her charge, but finally consented to do so for a money consideration.

## DEATH OF MRS. LOVELESS

Resident of Utah Since 1861 Passes Away at Provo After Lingering Illness.

(Special to The Herald.)  
Provo, March 1.—Mrs. Matilda Loveless, widow of the late Bishop James W. Loveless of the Second ward, died at her home here after several months' illness. The deceased was 80 years of age and was a native of Tennessee. She came to Utah in 1851 and since then has been prominent in church work. Two sons and six daughters and numerous great-grandchildren survive her. She was an aunt of Professor J. J. McClellan. The funeral will take place Thursday from the Sixth ward mortuary.

Mrs. Theone Sorenson of Huntsville died today at the state mental hospital, at the age of 23 years. The remains will be sent to Huntsville for interment.

Mrs. Elizabeth Jones was today granted a divorce from Horace Jones, on the ground of failure to provide. Plaintiff was granted the custody of one minor child, a girl, and the defendant to pay \$50 a month alimony. The parties intermarried in Salt Lake on Feb. 28, 1901.

## IN A STRANGE LAND.

(Philadelphia Record.)  
Two belated disciples of Bacchus staggered arm in arm up Walnut street about 2 o'clock the other morning. The street was dark, except for a single ground glass globe that blazed in front of an apartment house. One of the inebriates, spying this lone light, observed:  
"Oh, look at the moon!"

The other seriously contradicted him, saying:  
"That ain't no moon, zash sun."

This started an argument which lasted for several minutes as to whether the globe was the moon or the sun. Finally they decided to leave it to the first passer-by, who happened to be another "happy" gentleman. They stopped him and, pointing to the globe, asked:  
"Settle, argum, old pal; is that the moon or the sun?"

The third party stared knowingly at the globes for several minutes before he shook his head and replied:  
"Gentlemen, I really couldn't tell you. I'm a stranger in this town."

## COMMITTEE'S NO COMMENT

Reports to the Senate on Steel Trust Merger Will Be Considered as Individual.

Washington, March 1.—The senate committee on judiciary today voted to report a disagreement on the resolution providing for an investigation of the absorption of the Tennessee Coal & Iron company by the United States Steel corporation.

Any views submitted to the senate on the subject will be considered "individual" reports, not having the sanction of the committee. This is generally regarded as a compromise, as a number of senators had drafted a report declaring the merger to be in violation of the Sherman anti-trust law, and rebuking President Roosevelt for his part in the transaction, while others declared that it was not the function of the committee under the resolution adopted to pass upon such questions.

**Caused Much Discussion.**  
The decision not to submit either of the reports of the sub-committee was reached after a great deal of discussion. Finally Senator Fulton moved that a disagreement be reported and that each senator would have the individual right reserved to him to make such expressions of views to the senate as he desired.

This motion was adopted by a vote of 7 to 3, the affirmative votes being Messrs. Clark of Wyoming, Dewey of New York, Foraker, Dillingham, Knox, Fulton and Clarke of Arkansas.

The negative votes were cast by Nelson, Kittredge, Culberson, Overman, and Rayner. Senator Bacon was not present.

## NEW WARD ORGANIZATION

George W. Watkins Is Chosen as Bishop to Succeed J. B. McMaster.

Brigham, March 1.—The first ecclesiastical ward of this city was reorganized last evening at the ward meeting house. Bishop J. B. McMaster, who has presided over the ward some twelve or fifteen years, resigned owing to the fact, it is said, that his business required so much of his time that he could not be present at the meetings of the ward. Bishop McMaster has been a true "father" to the ward. He is a man of great energy, and his administration has been marked by his official capacity and by his personal interest in the welfare of every member of the ward. He was given a hearty vote of confidence by those in attendance at last night's meeting.

The new organization is as follows: George W. Watkins, bishop; Lorenzo W. Anderson, first counselor; N. S. Hansen, second counselor; Mr. Watkins and Mr. Anderson were formerly counselors to Bishop McMaster.

## EPHRAIM HAPPENINGS.

Ephraim, March 1.—County Superintendent of Schools A. T. Miner is agitating the consolidation of school districts. He has carefully compared the school districts of this county relative to the question, and he will make every effort possible to induce the county commissioners to act on the matter.

The city council met during the week to make arrangements for the organization of a company to operate a knitting factory in this city. Unless some changes are made in the plans the company will be withered before it is born. The \$10,000, and the stock will be subscribed by citizens of this place.

Sargents, the son of one of the pioneer residents of this city, died at the home of her daughter, Mrs. Christian Hanson, shortly after 8 o'clock this morning. Mrs. Anderson has been ill for the past few months, but her condition was not thought serious until Friday, when she was seized with a severe attack and gradually grew worse until relieved by death.

Mrs. Anderson came to Utah with the pioneers and passed through all the hardships of pioneer life. Shortly after they arrived in Utah, they located on a farm, but were shortly afterward driven out by the Indians. They then came to Ephraim, which has since been their home. Mrs. Anderson was a woman of great energy and a vast amount of energy. She was a woman of great energy and a vast amount of energy. She was a woman of great energy and a vast amount of energy.

**What Sorrow Causes.**  
Sorrow makes of every woman a little private queen of tragedy at times—just as joy makes of her at other times the most delicious queen of comedy. She is like a harp, swept by every wind of fate to ceaseless murmuring.

By portray the emotions grandly, convincingly, on the stage? Ah, that would be to bring from the harp the melody that only the magic fingers of genius can produce! And that is a gift the gods have denied all but about one in ten thousand of us.

Feel? Of course we do! Imitate easily, and simulate as if to the manner born? It is part of being a woman!

But act? Forget ourselves? Be actually in every moment thought and tissue, as well as in outward dress, the queen or the beggar maid—well, that is another matter! And that is a gift the gods have denied all but about one in ten thousand of us.

**A KEY TO THE MYSTERY.**  
(Youth's Companion.)  
The visitor took up a small canvas spread on the floor. "What's that?" he asked. "That's a chromatic in sad color, with golden accents," replied the young painter, "Lynn, night lights from the sea."

"I wonder—have I got it right side up?" The painter regarded the canvas doubtfully, then pointed to a remarkable signature in the corner.

"It's all right," he said. "You'll never make a mistake if you keep that in the right-hand corner. It is put there for that purpose."

## Grape-Nuts

for Brains—

Brains make

the man

"There's a Reason."

"Long, long thoughts."

(M. A. P.)

The following golf story has been associated with the name of Oscar Asch. He began a round rather badly, but at length got in a really clean shot. Turning to his caddy, a dour Scotch youth, he said: "Now, then, I'm not the worst player you've ever carried for, am I?"

Later on, a long putt was successfully holed, and Mr. Asch cried again: "What did I tell you? I'm not the worst player you've ever carried for, am I?"

"Long, long thoughts."

"There's a Reason."

## PARTIAL PARALYSIS

MAY BE ENTIRELY OF A FUNCTIONAL CHARACTER.

It is not necessary to accept it as hopeless since there are many well authenticated cures. There is absolutely no way of reaching the nerves with medicine except through the blood. The nerves receive all of their nourishment and support from the blood which, under healthful conditions, carries the elements needed to rebuild wasted nerve tissue.

Let the blood become deranged and deficient in these elements and the nerves will be badly nourished and headaches, neuralgia, sciatica, functional paralysis and a host of other nervous troubles may result.

In severe nervous disorders Dr. Williams' Pink Pills have accomplished many seemingly impossible cures. Such an instance was the cure of Mrs. Elizabeth Stratton, of No. 1126 Dewey avenue, Toledo, Wis. Mrs. Stratton has lived at her present address for the past six years and there is no room for doubt regarding her statement. She says:

"I had been ailing for some time through overwork and worry, when my right side suddenly became partially paralyzed. I could not move for some weeks without the aid of my husband. My right leg and arm were affected so that I could not use them. My nerves were in a terrible state. I shook all over and was excited by the least little thing. For weeks I could not sleep. My appetite was poor and I was a nervous wreck."

"I doctored with local physicians at Quincy, Ill., who said I had partial paralysis caused by a nervous shock. I did get a little relief from them but it was only temporary. Through a friend I was induced to try Dr. Williams' Pink Pills. This was after I had been sick for over a year. I was then only around but could not walk. The pills soon helped me and finally entirely cured me. My daughter also used the pills for a run-down condition of the blood and they helped her at once."

Willis so promptly effective, Dr. Williams' Pink Pills contain no harmful stimulants or opiates. They are perfectly safe and create no drug habit. Our booklet, "Nervous Disorders," will be mailed free on request to any address. Send for a copy today.

Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents. Six boxes for \$2.50, by Dr. Williams' Medicine Company, Schenectady, N. Y.

## CHATS WITH THE GIRL WHO WORKS

Was there ever a woman who at some moment in her life has not been impressed by the swift and sudden conviction that the greenroom and the footlights were her true home?

More than one demurely coiffured maid bending over a typewriter or measuring off lace, cherishes in her bosom the secret belief that had she but the wings of an angel, she would make a dash for the stage. Ellen Terry would have found a rival and the glory of Sara Bernhardt.

Doubtless no impressionable girl ever went to see Maude Adams without imitating the mannerisms of that charming little lady for days thereafter. And the spontaneity with which this was done convinced her that in the right clothes and the right setting she would make an interesting Babbie, or as bewitching a Peter Pan as anyone.

A most any woman has impassioned moments when she feels she could declaim the emotions of Juliet with a realism surpassing Miss Marlowe's. While as for Mrs. Fiske, she would make a dash for the stage. Ellen Terry would have found a rival and the glory of Sara Bernhardt.

The real truth is that there are a dozen different women in every one of us, and that we are very apt to answer to whatever key is struck. An astute Becky Sharp and a confiding Amelia, a wise and patient Agnes and a fond and foolish Dora, a headstrong Maggie Tulliver and a shy and retiring Emily, are all locked up together in the same feminine bosom more often than the world imagines, and it is almost the chance of fate which one is called into action.

**What Sorrow Causes.**  
Sorrow makes of every woman a little private queen of tragedy at times—just as joy makes of her at other times the most delicious queen of comedy. She is like a harp, swept by every wind of fate to ceaseless murmuring.

By portray the emotions grandly, convincingly, on the stage? Ah, that would be to bring from the harp the melody that only the magic fingers of genius can produce! And that is a gift the gods have denied all but about one in ten thousand of us.

## LEAVES HOME THINLY GLAD

Mrs. A. P. Anderson Wanders Away in Fit of Temporary Dementia.

## FOUND RIDING A BICYCLE

UNABLE THIS MORNING TO EXPLAIN HER ACTIONS.

Arising from her bed and donning the scanty covering of a blue dress and a man's overcoat over her thin, white night clothes, Mrs. A. P. Anderson of 251 Reed street, who was last August released from the state mental hospital, this morning about 1 o'clock left her home to wander about the streets in a recurrent fit of dementia.

The disappearance of Mrs. Anderson was reported to the police at 2 o'clock by her husband, A. P. Anderson, who maintains a store near Warren Springs. Shortly before 2 o'clock Mrs. Anderson was espied by her husband and Patrolman Davidson at the corner of Second South and Main streets riding on a bicycle. The demented woman could not account for her possession of the wheel, nor in her dazed manner give any coherent reply to questions put to her. She was taken to her home by the husband.

When at the station, Mr. Anderson said that about 1 o'clock his wife, who is only 22 years of age, had arisen on the pretext of going to an outhouse. Over her night dress she had put on a blue woolen dress, slipped her feet into a pair of red house slippers and for further protection from the cold night air had put on the dark blue overcoat and also a boy's light gray hat. As the minutes passed without her reappearance, Mr. Anderson grew apprehensive and began a search, to find that his wife was nowhere about the premises. The missing woman is a niece of Axel Carlson, or Anderson, who some weeks ago shot and killed Miss Matilda Ecklund at Sandy, and who was later adjudged insane and committed to the asylum. Mrs. Anderson was an inmate of the asylum until Aug. 3 of last year, when she was released on parole and into the custody of her husband and friends. Twice since then she has wandered away, one time going as far as American Fork.

## BUCKET SHOPS SHUT OUT.

Topeka, Kan., March 1.—The senate today passed the bill already passed by the house prohibiting "bucket shops" in Kansas. Telegraph operators taking quotations for such purposes are subject to heavy penalties.

## ON TALKING TOO MUCH.

(Philadelphia Ledger.)  
It was said of the great Prussian Field Marshal Von Moltke that he could be silent in seven languages. John Milton, the tercentenary of whose birth was lately celebrated, refused to let his daughters learn any other than their mother tongue.

The beauty of silence has been long enough for a woman. Perhaps had Milton realized that silence may be cultivated no less than speech he might have been willing to let his daughters "study to be silent" in half a dozen languages besides their own. By talking too much we mean, it is evidenced by flashes of wit and imagination; it distinguishes between matters of enduring importance and the mere trifles of the day. It is the art of the "unhindered" order of persons, whose brain (and consequently whose tongue) is widely occupied with the most insignificant trifles. Some people can talk a great deal without talking too much, because their conversation is of interesting things; it is evidenced by flashes of wit and imagination; it distinguishes between matters of enduring importance and the mere trifles of the day.

**Gold Dust**  
the all 'round cleanser

Do you waste your time and strength cleaning your home with a half dozen different compounds? Running for this one and trying to remember where you left the other one is a needless waste of energy.

Gold Dust is made to remove all kinds of dirt, and to be harmless to everything else.

Do not use soap, naphtha, borax, soda, ammonia or kerosene with Gold Dust. The Gold Dust Twins need no outside help.
